## George Timothy Clooney (mother's maiden name Warren) born on 6 May 1961.

## Introduction.

Name Reality is a simple mathematical formula that anybody with basic skills can use to calculate a person's character and life events. In a nutshell, there are 64 personality types dividing the human race, just as there are 64 fundamental forces that constitute the action of the Universe. You may have seen the numbers 1 to 64 before. There are 64 codons that make up human DNA. There are 64 hexagrams in the I-Ching and there are 64 squares on a chess board. It is recognized as a powerful mathematical force. Numbers are selected for each letter in your name, then added together to calculate which of the 64 personality types you have for each one of your names. Each name has two personalities. I call these primary and undertone. Each name you have is the result of both these personalities. In turn, you are the combination of the personalities from all of your names. This goes further to include your mother's maiden name and the number and the day you were born. Every one of us is the combination of at least 7 personalities or 9 if you have a middle name.

You can see how by a quick mathematical calculation you are one in 500 million or one in 200 billion if you add a middle name. Similar as the odds of two people having the same DNA, this system is incredibly accurate.

The second part of Name Reality reveals how letters in your names change and rotate on your birthday. Using the mathematical formula you can calculate a life chart showing which letters are active in what year. Every letter has a definition. Some are good and some are not so good. Again, it is the combination of these three or four letters, one from each of your names that dictate influences for that year of your life. For example; F, H, U, V, W and X can have a negative influence. C, G, J, K, L, N, P, Q, Y and $Z$ tend to have a positive influence. Letters $A, B, D, E, I, M, O, R, S$, and $T$ can swing either way depending upon the positive or negative from other letters active in the same year.

Any one name for the most is good. Just as you can touch any one key on a piano and it will sound good. When you press two or more keys at the same time or play with two hands, it is important you press the right keys. If you press the right combination of keys, you produce beautiful music. If you press the wrong combination of keys, at best you are out of tune, or worst, you become a dreadful noise. Your names apply a similar action. Here are the calculations for George Clooney.

## George 39/24. Timothy 38/34. Clooney 35/28. Warren 34/38. Dob. 6 May 1961.

There is an entire page devoted to every personality number. Herewith clips of his personalities cut and pasted directly from pages in my book Name Reality.
George 39/24. Often successful but can face problems. If humble you can rise from a low to high position with dignity. Not one to worry. You are generally fortunate in worldly affairs and will meet influential people. Your artistic side can lead you in this direction if you chose to do so. You like peace quiet harmony and dislike loud discordant noises. Contacts will advance your work prospects, often through influential women.

Timothy 38/34. You are bright, intelligent, generous, and a very good organizer. You have excellent leadership skills. You are somewhat traditional in your ways and may have spiritual or religious beliefs. However sometimes you can be too opinionated. You need positive balance from your other names to achieve both peace and success at the same time. You have leadership skills and executive ability that can show from an early age. You are bright and cheerful. You respond well to problems of your own and those of others. Good temperament. You can be very successful in whatever you choose to do. You need a strong or understanding partner.

Clooney 35/28. You are trustworthy. Good friends will be friends for life. You will reward those who are loyal. You have integrity. You strive for a peaceful life. You have a strong personality and an active mind. You can be very extrovert at times. Hard work usually brings you good results and money. You like success.

Warren 34/38. reads similar as Timothy. As these numbers repeat it reinforces these traits and these two names will be dominant in his personality.

Born on the $6^{\text {th }}$. You like peace and tranquility. You are creative; hence this name often produces artistic talent. You are ambitious, you can be very successful. You need and appreciate peace and quiet. You dislike sudden noise or being in a loud environment. Though sometimes have to put up with it. This will drain upon you until you find calmness elsewhere. Relationships and home are very important. You will conceal fears and worries, waiting to fix problems later when the time is more appropriate. Your love or desire for beauty and harmony shows in your appearance and belongings. You can be very successful in love. Harmony with your partner is important.

## Life Chart. The events chart clearly shows his massive success starting in 1988.

- George's first big break acting job was on the comedy Roseanne which came along in 1988 at the same time when the positive letter G supporting gains started in his chart.
- His big break and life changing event was being cast as Doug Ross in ER in 1994 - when all of the letters in his chart were positive! G for Gains. Double Y's for Double Success and N for Loving Conditions which includes loving life itself.
- From 1992 to 2006 he was unstoppable with such a strong positive combination of letters in his chart backed with his balanced personalities.
- From 2006 to 2013 he had no negative letter combinations restricting his progress and thus continued riding the wave he created.
- George gets married in 2014, exactly when the positive letter N comes into his chart. N supports love, romance and loving conditions.
- George became a father in 2016 in the middle and strongest year of the letter N for love and loving conditions with O for tranquility.
